Final
2 October 1956

- | | |
|--|----------|
| 19. Probable Intelligence Warning of Soviet Attack on the US Through 1960 | February |
| 20. Soviet Nuclear Energy Program | February |
| 21. Probable Developments in Tunisia (NIE 71. 3-57) | February |
| 22. Sino-Soviet Bloc Foreign Economic Policy and Probable Effects in Underdeveloped Areas (NIE 100-1-57) | March |

Recurring Estimates

The following estimates are normally produced annually and are scheduled for publication during the six months after the expiration of this program:

- | | |
|--|----------------|
| 23. Soviet Capabilities and Courses of Action Through 1962
Later consideration will be given the question of breaking up this estimate into several papers. | Second Quarter |
|--|----------------|

Tentative List

- | | |
|-----------|---|
| 24. Italy | Political developments since publication of NIE 24-56 may require either a brief NIE at an early date or a complete revision of NIE 24-56 in the Second or Third Quarter. |
|-----------|---|

Final
2 October 1956

25. Algeria

The developments anticipated in NIE 71.2-56 will almost certainly require a new Algerian estimate, possibly during the next six months, but certainly by the summer of 1957.

25X6

27. Guatemala

Enough time will have elapsed since publication of NIE 82-55 to warrant consideration soon of the advisability of revising that paper.

28. Turkey

The continuing deterioration of the economic and financial situation, as well as possible internal and external political developments, will probably require revision of NIE 33-56 during the Third or Fourth Quarter of 1957 and prior to the 1958 elections.

25X6

30. India

Our present estimate will probably need revision in light of the results of the 1957 elections.

31. Thailand

Last estimate published in December 1954. Another look is called for, particularly following national elections now scheduled for February 1957.

Final
2 October 1956

32. Cambodia

Last estimate, published in August 1955, should be brought up to date.

33. Malaya and Singapore

Our present estimate will probably need revision following developments such as the "independence" talks now scheduled for early 1957.

34. Long-Term Trends

This was scheduled in IAC-D-1/16 for First Quarter publication. We now foresee no specific need for publication at that time and propose to reconsider its scheduling at the time of the next revision of the Estimates Program.
